Preparations for 500 Mile Race. Preparations for 500 Mile Race.
Indianapolis, Ind., May 28.—Heavy raims and a slippery track today prevented completion of qualification trials for the Memorial day 500 mile motor race at the Indianapolis speedway, but clearing weather tonight gave promise that the speed tests could be wound up tomorrow morning. Speedway park will be closed all of tomorrow and no cars will be allowed on the course except those that are to try for eligibility for the race. Gangs of men will wash the brick oval of the coating of oil that has collected during the practice grind of the last several weeks, the banks will be sanded, irregularities will be ironed out, and the track finally will be made ready for Thursday's battle of the motors.

Only Two of the Active Issues Make Change of a Full Point.

New York, May 28,-Today's session New York, May 25.—Today's session on the stock exchange differed from that of the preceding day only in the sense that it was duller and more uninteresting. The resumption of business in London and on the continent after the triple holiday was of little avail here; in fact, business in the foreign maris was no more active than here. Some of the matters to which Wall street gave more or less consid-Vall street gave more or less consid-ration in the course of the day were he New Jersey presidential primaries proposed for reaching readjustmen f western freight rates, the refusal of of western treight rates, the refusal of the United States circuit court for this district to make permanent the tem-porary injunction recently granted the government restraining further mies of "valorized" coffee, yet another ad-vance in copper and the official weekly wenther record.

The latter was in some respects the nost important development of the lay, because it outlined a general condition decidedly more favorable than was entertained a fortnight ago.

As for the advance in copper metal, which was quoted at 18 3-4 cents, the

rise may have resulted from a better demand than was recently shown, but such inquiry, if genuine, failed to ex-tend to the copper shares, which re-flected the apathy so general in all parts of the stock list. Continued good P. SHEA,

The ordinance that provides that all vehicles shall head to the right whether in motion or at a standatill is being strictly enforced in the village of Westerly.

Two base hits, Wagner, Magoe, home run, Hauser, forty per cent, ahead of hast year's

Dr. Joseph Higgins of Manchester, Conn., visited his parents in Westerly this week. He made the trip in an automobile that attracted attention and caused favorable comment. The car is far out of the ordinary in an pearance and seems to be specially fitted as a physician's car. It was dif-ferent from any automobile seen in

alies in New London, citizens who live along the line of sections selected for speeding, will make formal request for redress by petitioning for relief through the good offices of the state police. The motorcycle squad of that body did some effective work for a short time in New London last summer and it is probable that they will be asked to come earlier in the season and stay later.

A six-ten truck with a capacity like a giant freight car came to Danielson Saturday and took away to woonsocket the household goods of a found the condition of the reads satisfactory. He made the run to Danielson in about four hours.

Mr. and Mrs.

An interesting phase of the automo-bile business, and one which would seem to indicate that this great indusmy is still in its infancy, is afforded by the constantly growing demand for light motor delivery wagons for gro-cers, bakers, markets, laundries and other merchants of the smaller cities and towns, as well as the department stores, express companies, etc., in the larger cities.

New York will have but one automobile show next winter, and it will be so big as to make necessary the use of two buildings. This was settled definitely last week, when a contract was signed for the use of Madison Square garden by the automobile board of trade, which also has a lease on the new Grand Central palace.

The recently appointed automobile committee of the New London business men's association met Priday night and organized itself into the Automobile club of New London. The prin-cipal business at the meeting was the election of officers which resulted as follows: President, Henry R. Bond, Jr.; secretary, J. P. T. Armstrong; treasurer, Alexander E. Fournier.

The whole state is benefited by the advertising which good roads give. The people of the cities, who pay a fair share of the state taxes, are among those who use such main line and thus get their money's worth. Th husiness interests of the people of th husiness interests of the people of the whole state, the valuation of real property, the welfare of the actizenship, all are enhanced by the construction of main line roads. If built and maintained under state supervision a uniformity of excellence is achieved which is one of the chief charms of a good road.

selves as very much pieused with the conditions at New London, where there is no attempt to regulate the speed, and where more freedom is given than the state of a heavy shipped by Adams express from that station a truckload of their product to an Chio tire manufacturing compiny, it costs money to send such heavy shipments by express—a lot of money—so it is assumed that the cloth was badly needed for rush orders.

The summer visitors that occupy cottages at Watch Hill gre beginning to arrive, and a busy season is predicted for the garages at that fashionable summer resort. Twelve families and fifteen automobiles have arrived aiready.

The New London Automobile club is now fully organized and will soon begin its efforts in behalf of bettering the conditions of the highways leading into the city and to adopt plans that will result in stricter obedience to law, and to see that the example of the members are emulated by visiting automobiles, as bady needed for fuel orders.

When a prisoner goes to Breokdyn jail nowadays, though they are not going very often, the chances are should to 1 that they make the trip in an automobile. Deputy Sheriff George F. Holbrook of Putnam takes all the prisoners from the city court there over in his machine, as does Chief Pilling from the Damielson town court. One burn recently remarked as he was riding over: "I have looked at these things and felt of them and dedged them for ten years, but this is the first time I ever got next to a ride in one. It feels worth the 30 days in the pen."

Execrable, abominable, punk, rotten, —I etc., are incituded in the

that will result in stricter obedience to law, and to see that the example of the members are emulated by visiting automobilists, some of whom take great chances in manipulating their automobiles, and really do escape even police warning.

In Rhode Island, the automobile registration last week passed the 9,000 mark. The filling in of "dead" numbers with new registrations has not been followed closely for the past year and it is evident that the proportion of numbers outstanding which do not represent cars is quite large. In the opinion of state officials over 2,000 "dead" cars are represented in the list as it now stands.

Lie to the stands.

What good roads will do in afracting tariff is shown on a route between Moosup and Danielson, the Wantegan road. Hefore this was rebuil record for the corresponding date, and it is believed that five numerals will be reached in the registration. The total receipts up to the first of May a year ago were \$19,985, and for the same period this year the receipts are \$27,669. Next month the board expects to issue fully 2,000 renewals of licenses to operate cars in addition to the average amount of new business. line to New London.

Brooklyn, ancestral home of Gen. Israel Putham, is coming more and more into favor with touring parties as an objective point. It is a beautiful village, rich in historical associations and delightful to look upon. There is comfort there, too, for the travelor at an inn that many automobilists are coming to know about. From Danielson a fine state road leads to Brooklyn, only four miles distant.

Mr. and Mrs. A. H. Armington reached Danielson Tuesday night from Hartford in their new touring car, which was promised Mr. Armington for delivery in March.

It has been said in Danielson within few days that the amount invested automobiles in Killingly this year twice the amount that has been wested in real estate (new)this sea-
